

## **Objectives**

- To prepare Nursing Officers capable of delivering safe, skilled, and compassionate care across diverse healthcare settings.
- To instill a deep-rooted sense of service in Nursing Officers, ensuring they approach healthcare with dedication, empathy, and the commitment to uplift lives through knowledge, leadership, and collaboration.
- To emphasize the significance of ethical principles & professional conduct.

## **Goals**

Upon completion of the program, the Nursing Officers will be competent to apply critical thinking, scientific knowledge, and clinical expertise to deliver holistic nursing care in hospitals, community settings and contribute collective well-being of the society at large.
